

**DIGIstrobo from hifi4music**

Retail Price Schedule

Effective: January 1, 2012

DIGIstrobo is a unique new digital instrument for extremely accurate measurement of turntable speed. Microprocessor-based with a precise Quartz crystal.

Different from any other strobe, HIFI4MUSIC's DIGIstrobo not only measures the actual speed of the platter at any moment, even while the record is playing (!), but you will also be able to evaluate not only the precision of your speed settings, but also speed fluctuations of your turntable's motor (wow and flutter).

**DIGIstrobo**

Item Code	Description	Suggested Retail
DIGIstrobo	Digital Turntable Strobe	\$159.95
